

Domain Name Changes

You will remember that In March we changed our name to the Scottish Association of Motor Sports Clubs, and we have a new domain name and emails to match.

scottishcarclubs.COM became scottishmotorsportsclubs.CO.UK

lock@scottishcarclubs.COM became lock@scottishmotorsportsclubs.CO.UK
and similarly for peterweall@, rupert@, training@, treasurer@, secretary@, etc

The old website, URL and email addresses are about to disappear, and if you have not done it already, you should update your bookmarks and contacts now.

Move to New Server

This was due to a hardware upgrade at the hosting company. Actually completed a week later than planned. The hosting company copied the content and the database to the new server, but didn't bother with some mail and DNS settings, which were left on their default settings. Then they jumped the gun and twice switched off the old service before the new one was working, so we had periods of some hours when the SAMSC mail may have been bounced.

Website Updates

GDPR privacy policy added.
Plus usual ongoing calendar and regs and news updates
