Re: Application for Membership

Dear Peter

Formed in 1995, The Association of Motorsport Recovery Operators (AMRO) is a UK wide Motorsport UK registered marshals club. Our Membership is made up of over 80% of all Motorsport UK licensed recovery units and crews throughout the UK.

It has recently come to our attention that, whilst Motorsport UK registered, AMRO was never a Member of any Regional Association.

We wish to rectify this situation as we feel that it would be beneficial for our members to be represented in an Association in each of the Home Nations.

To this end we would like to apply for membership of the Scottish Association of Motorsports Clubs. AMRO do not organise events, other than recovery training and assessment events on behalf of Motorsport UK throughout the country.

We have already been accepted as Members of ANICC in Northern Ireland and ANWCC in the North of England and I trust the Officers and Member Clubs of SAMSC will give our request due consideration. I am happy to provide any information required to substantiate our application.

Yours Sincerely

Ian Culbert
Chairman
