

## Race Committee Report March 2020

Race Committee met on the 20<sup>th</sup> of February, as usual the majority of the discussions took place on Race matters relating to safety and regulations.

We also had a fulsome and informative presentation from Colin Clark on MSUK current vision and progress , this created a lively debate, Dan Carter also presented us with the latest accident statistics from within UK Motorsport, again enlightening and further info requested going forward.

Prior to the meeting I advise our Chairman Pete Weall that a question had been raised regarding the lack of someone with Race experience within the Regional Committee, this was again discussed and felt to be inappropriate, John Ryan suggested he would look at this and assist, I shall work with him to seek a resolution and share with Pete to seek a resolution.

If anyone has any questions please email or call.

Rory copied in if you have anything to add please advise.

Kind Regards

Sandy Denham
