

Road Events Report

June 2020 SAMSC

Scottish Navigational Rally Championship

Well not a great deal to say really. My March report was submitted between rounds one and two of the Championship. As you all know that meeting never took place and following on from then the next three rounds of the Championship, **Moonless Rally (Saltire)**, **Gropers Rally (SDMC)** and **March Hare Rally (63CC)** all were unable to run.

I have been in touch with the organisers of the remaining three rounds of the Championship and it doesn't look as if they are going to be running either.

So it looks as if we save ourselves the cost of trophies for 2020 and abandon this year's Championship!

Mull Targa Rally:

Managed to sneak in the weekend before lockdown with 39 starters and 35 finishers. I'm sure that seems an awfully long time ago for those competing (and marshalling).

On-line activities during lockdown:

Much fun and brain soreness has been had by a series of table-top rallies held over the recent weeks. So far there have been 5 separate events held over a week, every second week, these have attracted considerable interest with entries of circa 50 an event. Next up comes Richard Crozier's innovative Rally of the Isles which should be interesting.

Thanks so far go to David Law (2 events), Stewart Merry, Ewan Leeming, Martin Forest & Richard Crozier. Further events are coming from Pete Weall and Ian Maxwell.

Lots of fun being had by all and I just hope that once rallying is safe to start again that some of these competitors will decide to have a go at the real thing!

Dave MacKintosh (Co-ordinator for Road Events)
