## Emergency Planning College

The National Centre for Resilience Learning & Development

### Public Safety at Motor Sports

#### Training from the EPC

What do you need to consider when dealing with the public and crowd control for these large outdoor events?

With motorsport legislation allowing events to take place widely; it is important to ensure crowd and public safety at such events.

This 1 day course will provide you with an overview of the legislation and the tools you need to look at the planning and risks for spectators when running such events.

# Public Safety at Motorsports

---

## Aim

To provide those with responsibility for the safety of spectators at motorsports events in public places with a framework of good practice in planning and organising such events.

## About this course

This course is one of a kind, providing industry specific information to anyone that is interested in motorsports or crowd control at outdoor events.

It is a great opportunity for you to hear from subject matter expert Chris Jones, who is currently the Associate Director with a leading independent insurance broker providing liability insurance and risk management advice to Motorsport Governing Bodies, associations, independent clubs and event promoters.

---

EPC Associate  
**Chris Jones**  
Dip, NEBOSH

Chris Jones is the Associate Director and Risk Manager at Integro Insurance Brokers Limited.

## Who should attend?

This course is ideal for anyone who works for Local Authorities, Awarding Bodies, Events Planners, Security Volunteers, Emergency Services and Event Organisers.

## Objectives

By the end of this event you will be able to:

- Explain the various bodies and guidance which should be taken into account for planning a safe motorsport event
- State the differences between the organisers responsibilities for participants at events and those for spectators
- Produce a qualitative risk assessment in relation to spectator safety
- Evaluate the safety aspects of spectator safety management
- Identify the difficulties and benefits of all stakeholders in planning events
